Re: Patent Application for
DATA PROCESSING SYSTEM AND
METHOD FOR FINANCIAL DEBT INSTRUMENTS

Dear David:

Enclosed is a copy of the above-identified patent application. The application includes a specification with claims, a combined Declaration and Power of Attorney form, a set of drawings and a joint Assignment form.

Please read over the application to ensure its accuracy. If any minor errors are discovered, such as typographical errors, please correct them in black ink and at the side of the page in line with each correction, you should sign your initials and the date. If you discover any major errors, please notify me either by telephone or in writing so that I can revise the application accordingly.

In reviewing the claims of the application, please check to see if they cover your invention. In doing this, it may be helpful to ask yourself if anyone could make the product without using all the elements set forth in the five independent claims.

HENY-257730.1

Exhibit A

Mr. David M. Weisberger

March 30, 1994

Page 2

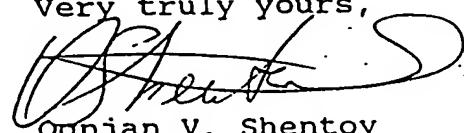

If the application requires no correction or if minor corrections have been made, please execute and date the original Declaration and Power of Attorney forms without detaching them from the application. The Assignment form should also be executed and notarized.

The original of the application including the drawings and the combined Declaration and Power of Attorney and Assignment forms should then be returned to me in the provided DHL envelope.

You will note that the Declaration and Power of Attorney of Attorney form contains an acknowledgement of your duty to disclose to the Patent Office information that you know of which is material to the examination of this application. Information is material where there is a substantial likelihood that a reasonable Patent Office Examiner would consider it important in deciding whether to allow the application to issue as a patent.

SIR:

I, Robert S. Tull, hereby declare:

1. I am one of the inventors of the above-
identified application.

2. I am Vice President of Morgan Stanley & Co.
Incorporated ("Morgan Stanley") the assignee of the above-
identified application.

3. Mr. David M. Weisberger, a former employee of
Morgan Stanley, is a named inventor in the above-identified
application, and has refused to sign and join in the
application.

4. From March 28, 1994 to August 30, 1994, after
Mr. Weisberger left Morgan Stanley, I personally contacted Mr.
Weisberger by telephone on the following occasions to inform
him that his review and signature of the above-identified
application would be required:

a) On March 28, 1994, prior to the filing date of
the application, I spoke to Mr. Weisberger requesting that he
review the application and sign the appropriate forms which
our attorneys were to send to him by DHL courier. Mr.
Weisberger promised to look into the matter but never returned
the forms which were mailed to him on March 30, 1994.

b) On April 22, 1994 I contacted Mr. Weisberger
again regarding his review and signature, and he promised to
"get to it." The executed application was never returned.

Exhibit B

c) On May 9, 1994 I left a message on Mr. Weisberger's answering machine, again requesting that he review the application and sign the appropriate forms so as to complete the filing requirements of the U.S. Patent and Trademark Office for this application. Mr. Weisberger did not return my call.

d) On August 30, 1994, I contacted Mr. Weisberger again regarding his review and signature of the above-identified application. In this conversation Mr. Weisberger informed me that he refuses to sign the application and has no intention to do so.

5. Mr. Weisberger never returned the application or the declaration and assignment forms, signed or unsigned, and has continually refused to do so.

6. I hereby declare that all statements made herein of my knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
